### LOOK AT THIS.

WILL sell at public auction, Wednesday the 21st of July next, not previously disposed of, our STEAM MILL in Edgefield district, and the tract of Land which it is situated, lying on the Mortenton road, forty three miles above Hamburg, at seven miles below Can德erwood; together with all the property on the premises, consisting of horses, mules, oxen, cows, hogs, wagon to carry logs, and carts.

The Mill is capable of cutting from 600 to 3000 feet of lumber per day; and we had a demand for the same, which we had no means to meet, and we feel confident saying that such will continue to be the case, as it is situated in the margin of the pine woods, adjacent to a wealthy section of country which is almost destitute of pine suitable for lidding.

The situation is elevated and healthy, and well calculated for a public stand; the is on the tract of land an abundance of timber, and about three hundred acres, which is deemed almost equal to any lands in the district point of fertility, of which about sixty acre are in cultivation.

There is also on the premises a large Carpenter's shop, Blacksmith's shop, stables and crib, (fanned,) together with other buildings.

Those that may wish to purchase, will do well to call and examine the property themselves; and if they should wish to make a private contract for the same, we would refer them to Henry R. Williams, who is on the census, or either of us, who can be found at Milton Post Office, Laurens district.

We will furthermore state for the information of those that might wish to purchase the Engine, without the other property, we will sell it alone for the sum of \$1500 less power, as computed by Mr. W. B. Lauder, the Engineer in our saw-mill, and capable of driving one side saw, weighing of 12 saw and one set of grinders; as the times are hard and money scarce, we will take negro partly in exchange for it; women and children would be preferred, or sell it on a credit of two, or even three years, the purchaser giving prompt notes.

It is therefore ordered, that they do appear and object to the division or sale of the property, as it is situated, on the 16th of October next, or before the 1st of November, to the same, or either of us, who can be found at Milton Post Office, Laurens district.

We will furthermore state for the information of those that might wish to purchase the Engine, without the other property, we will sell it alone for the sum of \$1500 less power,

### MOFFAT'S

LIQUIDS, & PHOENIX BITTERS.

THE perfectly safe, smelted, and successful treatment of almost every species of disease by the use of MOFFAT'S LIQUID MEDICINES, is no longer a matter of doubt, as a reference to the experience of many thousand patients will satisfactorily prove. During the present month alone, nearly one hundred cases have come to the knowledge of Mr. Moffat, where the patient has, to all appearance, suffered a permanent cure by the exclusive and judicious use of the LIQUID MEDICINES—some eight or ten of these having been considered beyond all hope by their medical attendants. Such happy results are a source of great pleasure to Mr. Moffat, and inspire him with new confidence to recommend the use of his medicines to his fellow-citizens.

The LIQUID MEDICINES are a purely VEGETABLE preparation. They are mild and pleasant in their operation, and at the same time thorough—acting rapidly upon the secretions of the system—carrying off all serous humors, and assimilating with and purifying the blood. For this reason, in aggravated cases of DYSPEPSIA, the LIQUID MEDICINES will give relief in a shorter space of time than any other prescription. In Fever and Ague, Inflammatory Rheumatism, Fevers of every description, Sick Headache, Heartburn, Dizziness, Impaired appetite, and in every disease arising from an impurity of the blood, or a disordered state of the stomach, the use of these Medicines has always proved to be beyond doubt greatly superior to any other mode of treatment.

All that Mr. Moffat asks of his patients is to be particular in taking them strictly according to the directions. It is not by a newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial. Is the reader an invalid, and does he wish to know whether the LIQUID MEDICINES will suit his own case? If so, let him call or send to Mr. Moffat's agent in this place, and procure a copy of the Medical Manual, designed as a Domestic Guide to Health, published gratuitously. He will there find enumerated very many extraordinary cases of cure; and perhaps some exactly similar to his own. Moffat's Medical Office in New York, 375 Broadway. For sale by C. A. DOWD.
